

Ceremonial unveiling of the haptic model of Old Town Square

We cordially invite you to the unveiling of a haptic model of Old Town Square in the centre of Prague.

The aim of the Rotary Club of Prague City's Touch Prague's History project is to enable people with visual impairments to take a haptic (touch) tour of the most important monuments. In addition to the educational goal and support for the blind, this 2nd haptic (tactile, touch) model in Prague will promote the ideals of the Rotary movement of help and friendship.

Olga Rühle
President RCPC 2023/2024

**June 6, 2024
5:00 p.m.**

Park near the Old Town
Square.,
